

Taboo:SonoPath Sonogames

Credits: Robert Stenberg, UNC/VCU/CCAG EM Residencies, FOAMed

- Goals
 1. Guess as many cards as they can. May match any cards they have guessed correctly with the board of pictures. When they are completely done they say DONE. Then final score is calculated

- Rules

Clue giver may not say ANY part of the word NOR any of the keywords listed with the word
If they say any of the clues on the card, they are NO longer able to get points for guessing right. But they can still guess it and then match it for those points

Must claim when they are done with taboo cards to receive matching cards Must claim done with matching cards or the timer goes off

- Scoring
 - 1 points per correct taboo guess
 - 4 points per correct image match
 - 25 points extra if you guess all taboo questions correctly without cheating/losing card points
 - 25 points extra if you match all of the images correctly

- Equipment
 - Ultrasound machine, gel, towels
 - Larger table for matching piece
 - Large printout of all 20 images (PPT, print one slide/page)
 - Printed out clues/keywords cut out one per clue

- Images:
 1. AAA Abdominal Aortic Aneurysm
 2. WES sign Wall Echo Shadow Sign
 3. Tamponade
 4. DVT Deep Vein Thrombosis
 5. Ascites
 6. Clot (clotted pelvic blood)
 7. Ectopic
 8. IUP Intrauterine pregnancy
 9. B lines
 10. Pneumothorax
 11. Lymphadenopathy LAD lymphadenitis
 12. Abscess
 13. Nec Fasc Necrotizing Fasciitis
 14. Hydronephrosis
 15. Vitreous detachment
 16. IUD
 17. Shoulder Dislocation
 18. Tenosynovitis
 19. Pleural effusion
 20. Pericardial effusion

1. AAA Abdominal Aortic Aneurysm
 - a. Triple A
 - b. Balloon
 - c. Rupture

2. WES sign Wall Echo Shadow Sign
 - a. Gallbladder/Gallbag
 - b. Stones
 - c. RUQ

3. Tamponade
 - a. Pericardial effusion
 - b. Collapse
 - c. Paradoxus
 - d. Alternans

4. DVT Deep Vein Thrombosis
 - a. Clot
 - b. Femoral
 - c. Anticoagulation
 - d. PE Pulmonary Embolism

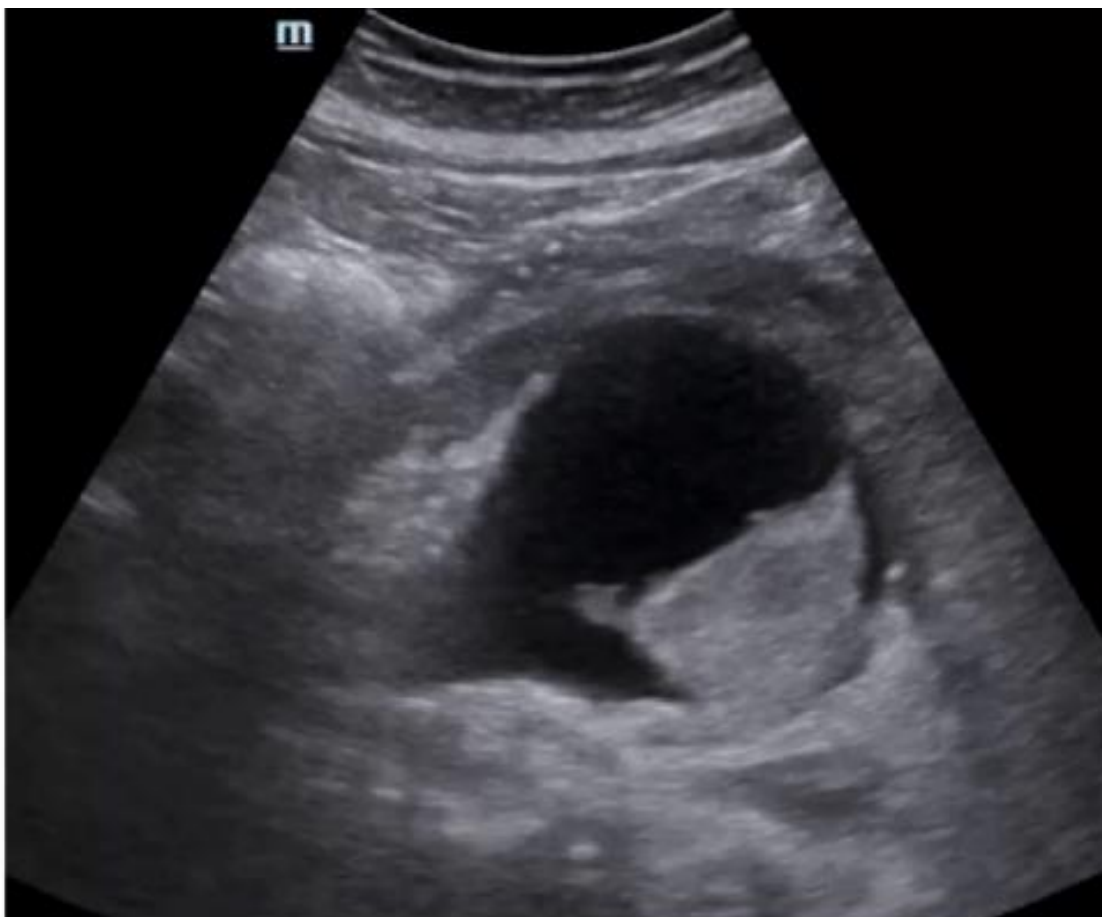

5. Ascites
 - a. FAST
 - b. Free fluid
 - c. Morrison's pouch
 - d. Cirrhosis/ESLD (End-stage liver disease)

6. Clot (clotted pelvic blood)

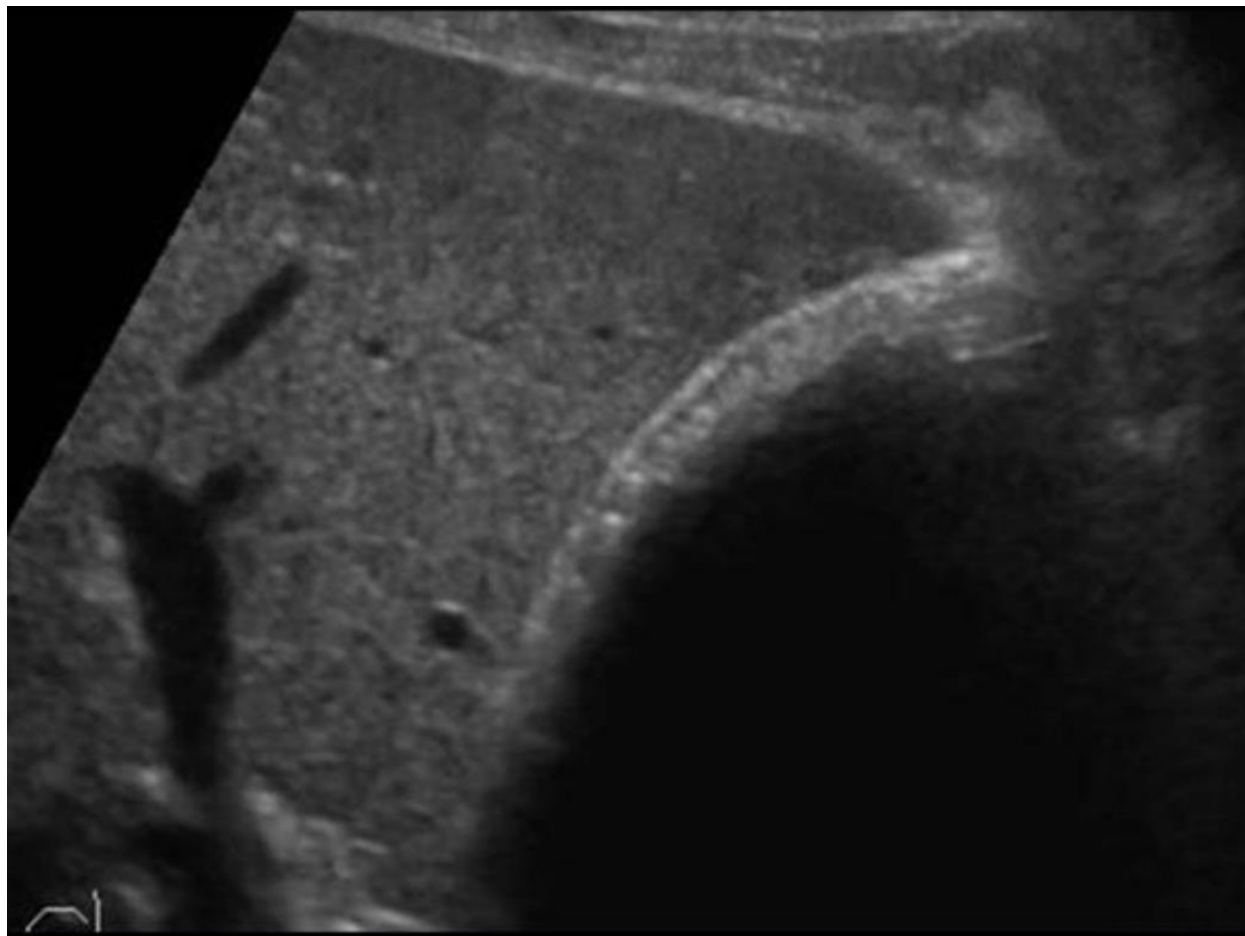

- a. FAST
 - b. Echos
 - c. Bleeding
7. Ectopic pregnancy
- a. HCG human chorionic gonadotropin
 - b. Tubal
 - c. Interstitial
 - d. Extrauterine
8. IUP intrauterine pregnancy
- a. Gestational sac
 - b. Yolk sac
 - c. HCG human chorionic gonadotropin
 - d. Baby
9. B-lines
- a. SCRAPE Sympathetic Crashing Acute Pulmonary Edema
 - b. ARDS
 - c. COVID
 - d. Lungs
10. Pneumothorax
- a. Lung point
 - b. A lines
 - c. Trauma
 - d. Dyspnea
11. Lymphadenopathy LAD lymphadenitis
- a. Inguinal
 - b. Hilum
 - c. Strep pharyngitis
 - d. Viral
12. Abscess
- a. Pus/pusistalsis
 - b. Incision and drainage
 - c. Sonographic fluctuance
13. Nec Fasc Necrotizing Fasciitis
- a. Dirty shadowing
 - b. Subcutaneous thickening
 - c. Fascial fluid
 - d. Vanc Zosyn Clinda
14. Hydronephrosis
- a. Nephrolithiasis/Urolithiasis/Stone
 - b. UVJ/UPJ

- c. Flank pain
 - d. Urology
15. Vitreous detachment
- a. Flashes floaters curtains
 - b. Optic nerve
 - c. Fundoscopy
 - d. Ophthalmology
16. IUD
- a. Mirena
 - b. Contraception
 - c. Strings
 - d. White
17. Shoulder dislocation
- a. Glenohumeral joint
 - b. Reduction
 - c. Milch
 - d. Anterior
18. Tenosynovitis
- a. Kanavel's signs
 - b. Tendon/Tendon Sheath
 - c. Sail/Flag sign
 - d. Empyema
19. Pleural effusion
- a. Pneumonia/Parapneumonic
 - b. Thoracentesis
 - c. Sail/Flag sign
 - d. Empyema
20. Pericardial effusion
- a. Tamponade
 - b. Epicardial fat pad
 - c. Pericarditis/Myocarditis
 - d. Fluid

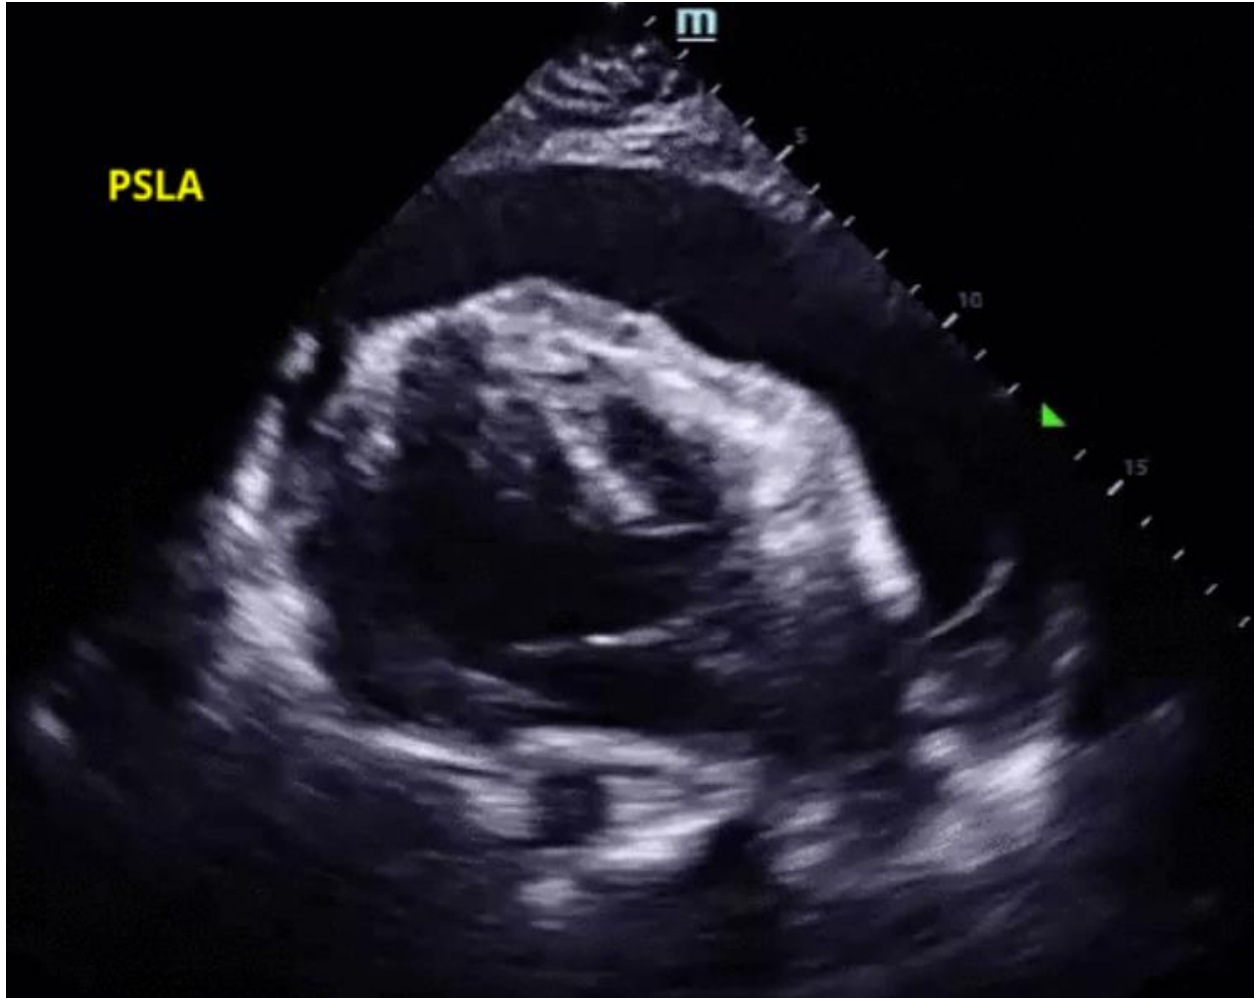

1. AAA Abdominal Aortic Aneurysm

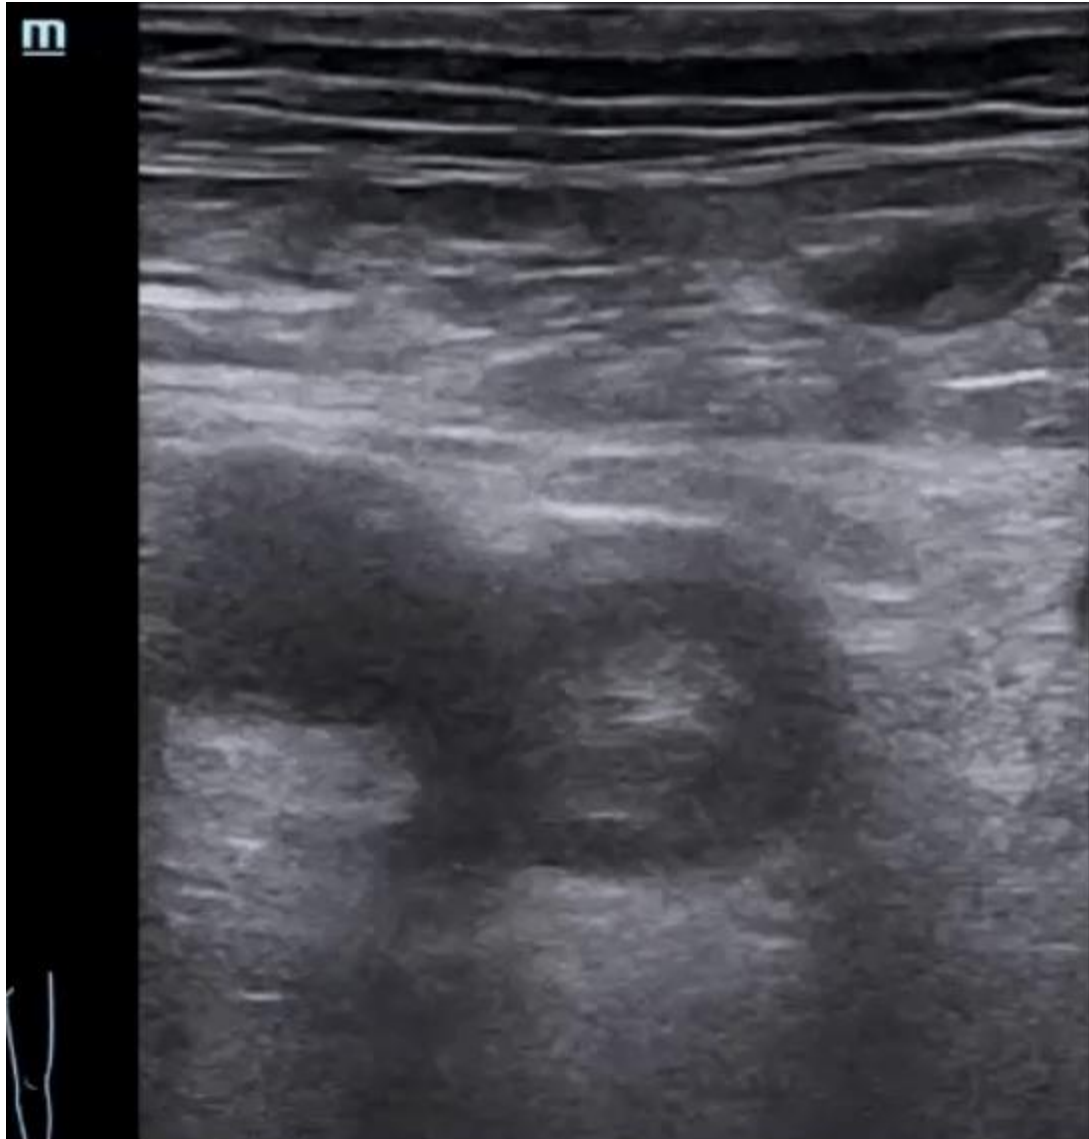

2. WES sign Wall Echo Shadow Sign

3. Tamponade

4. DVT Deep Vein Thrombosis .

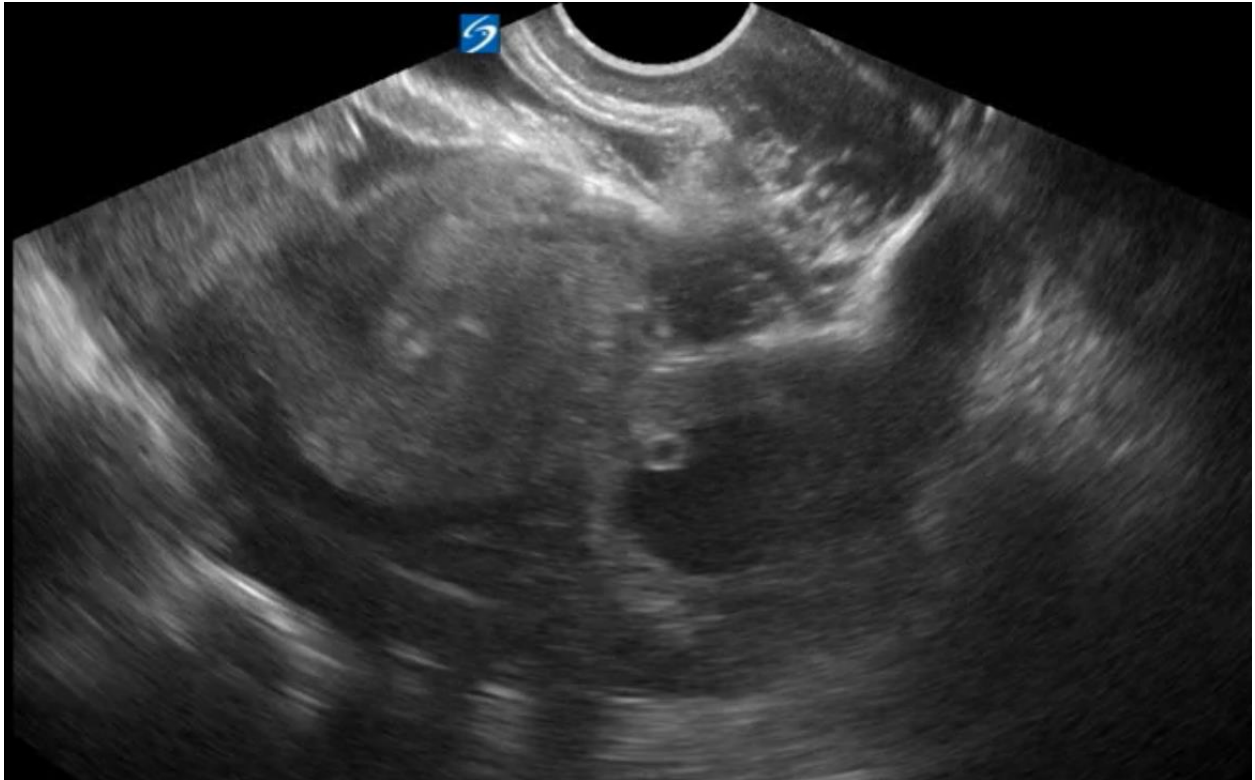

5. Ascites

6. Clot (clotted pelvic blood)

7. Ectopic

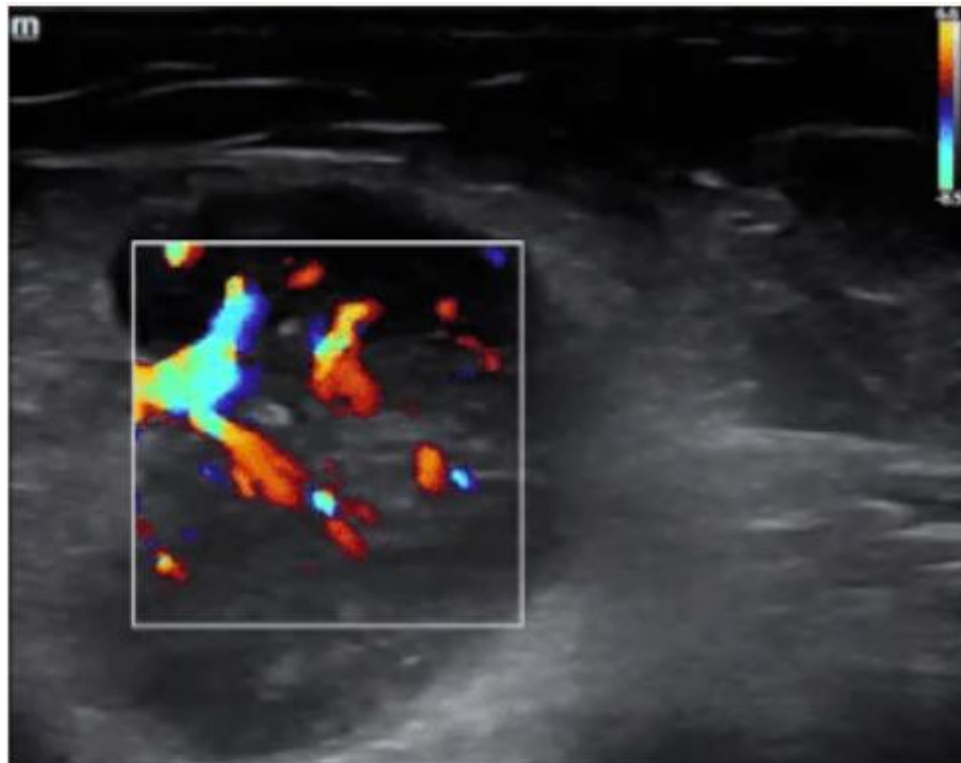

- 8. IUP Intrauterine pregnancy
- 9. B-lines

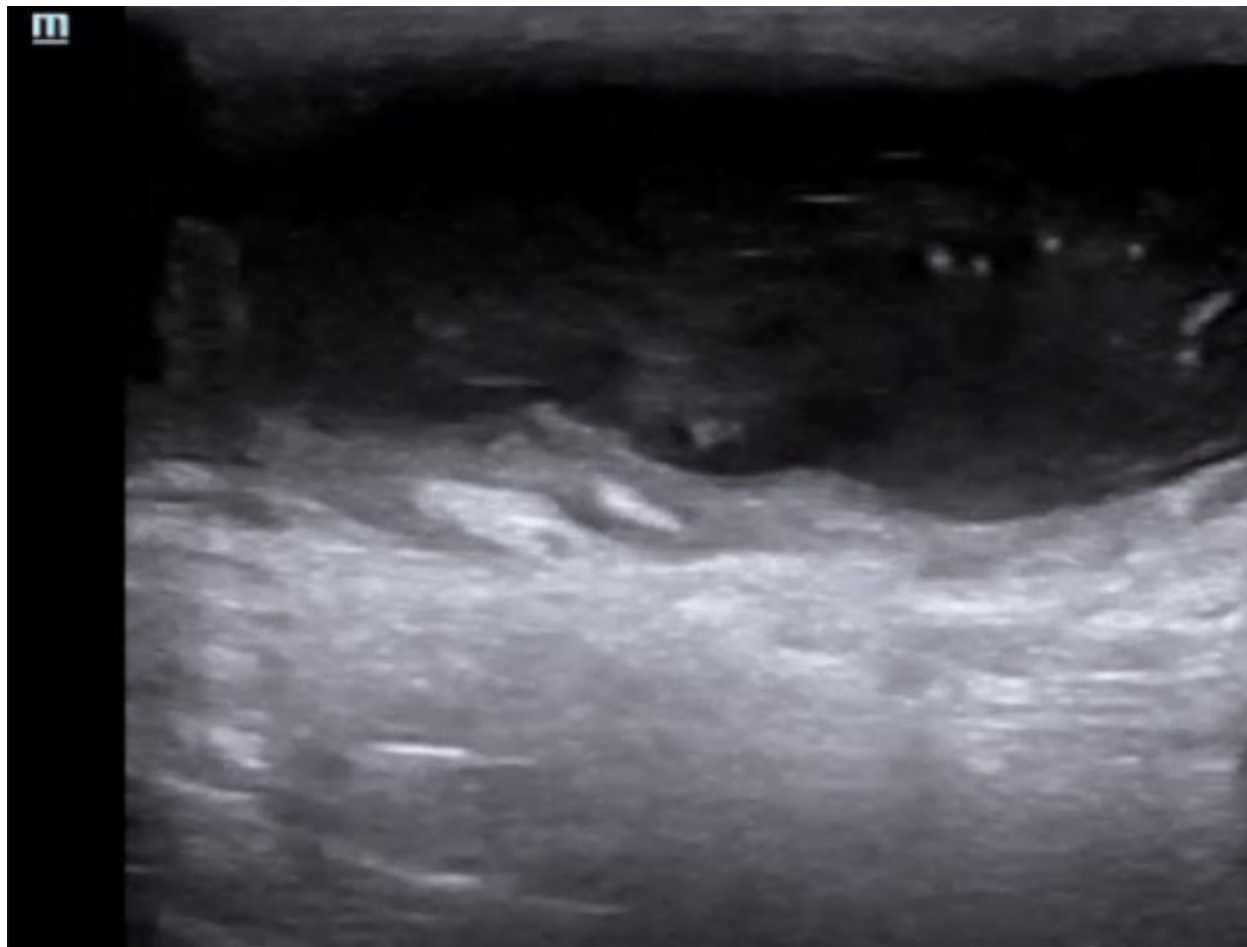

10. Pneumothorax

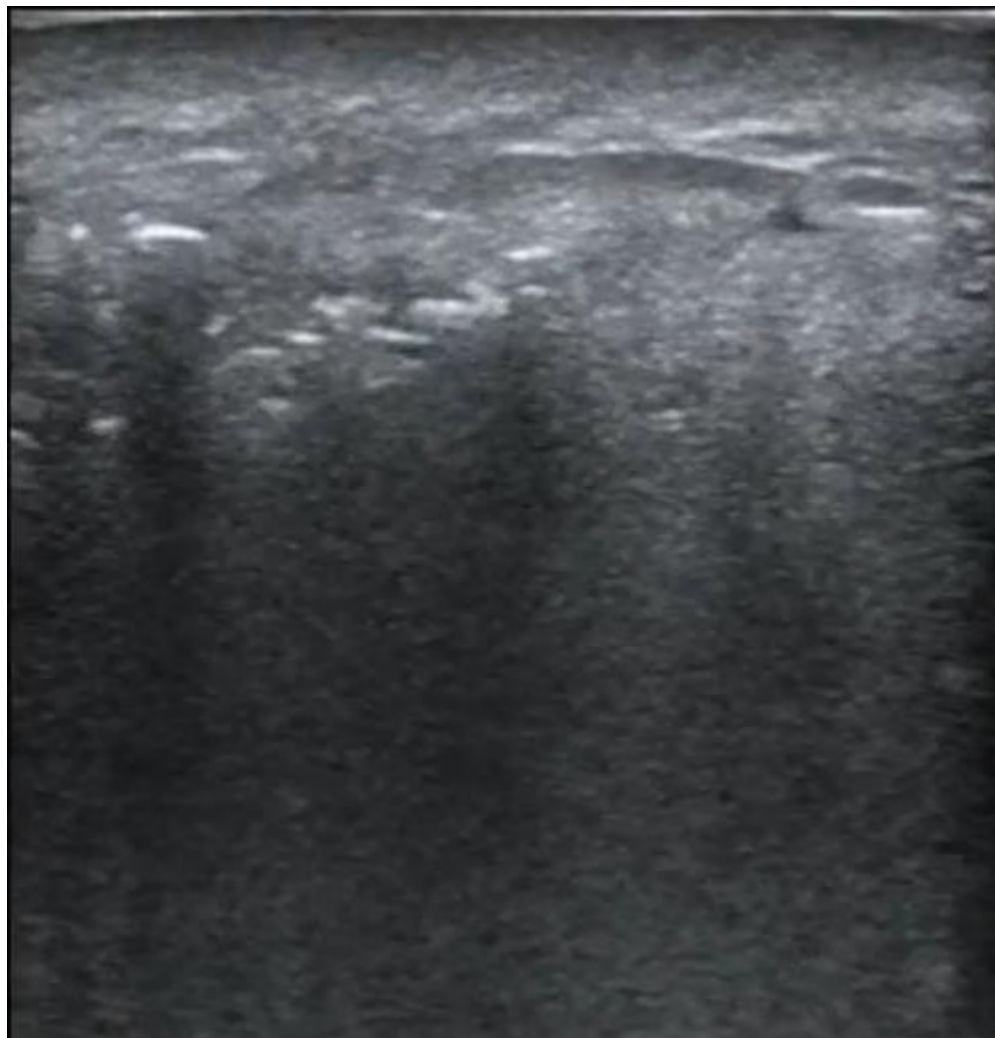

11. Lymphadenopathy LAD lymphadenitis

12. Abscess

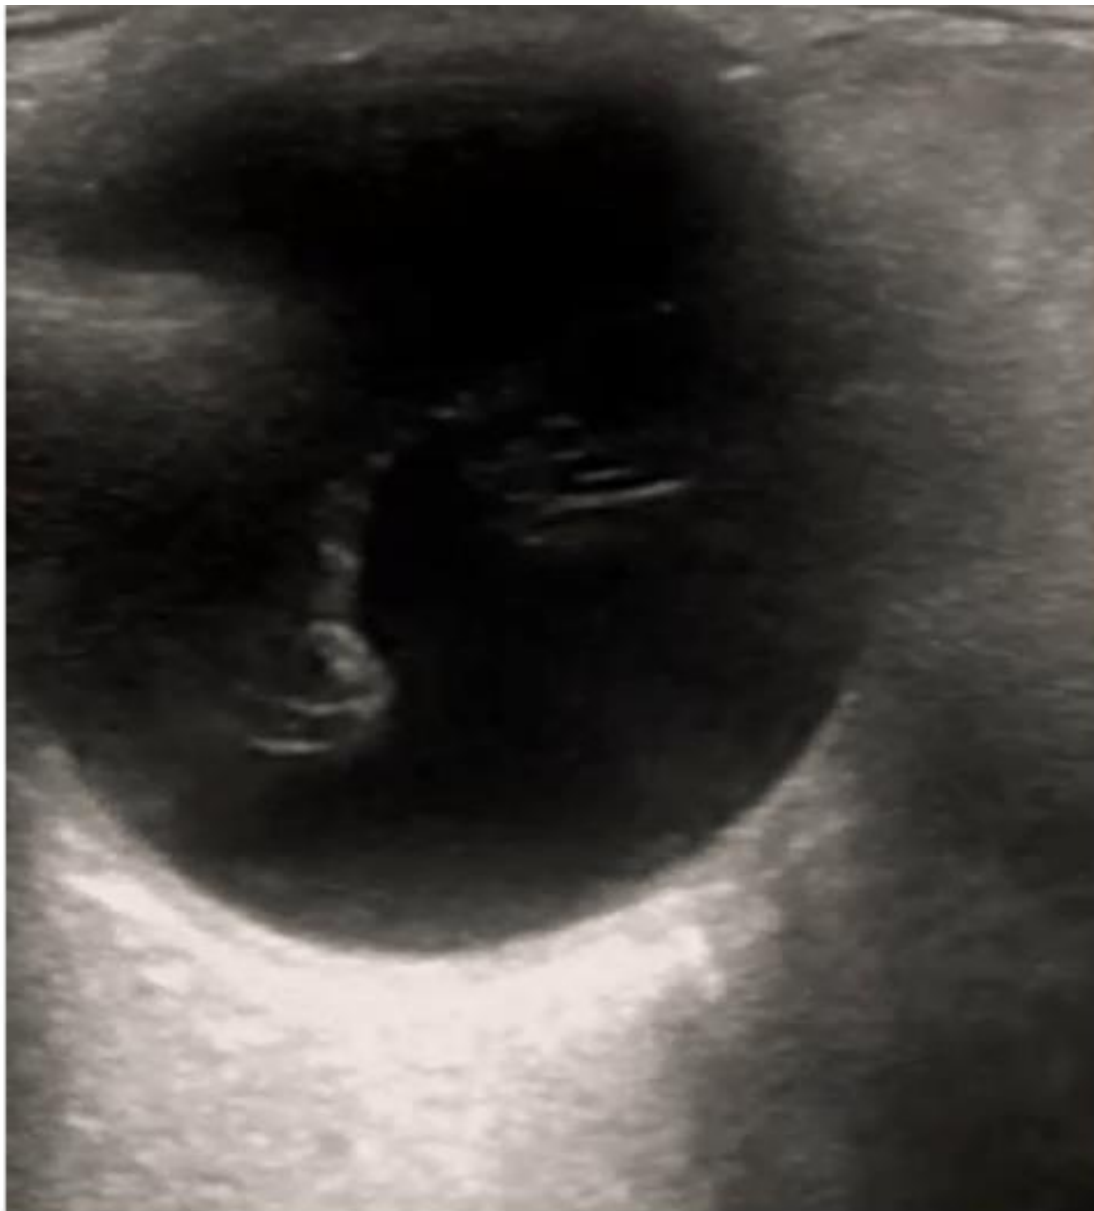

13. Nec Fasc Necrotizing Fasciitis

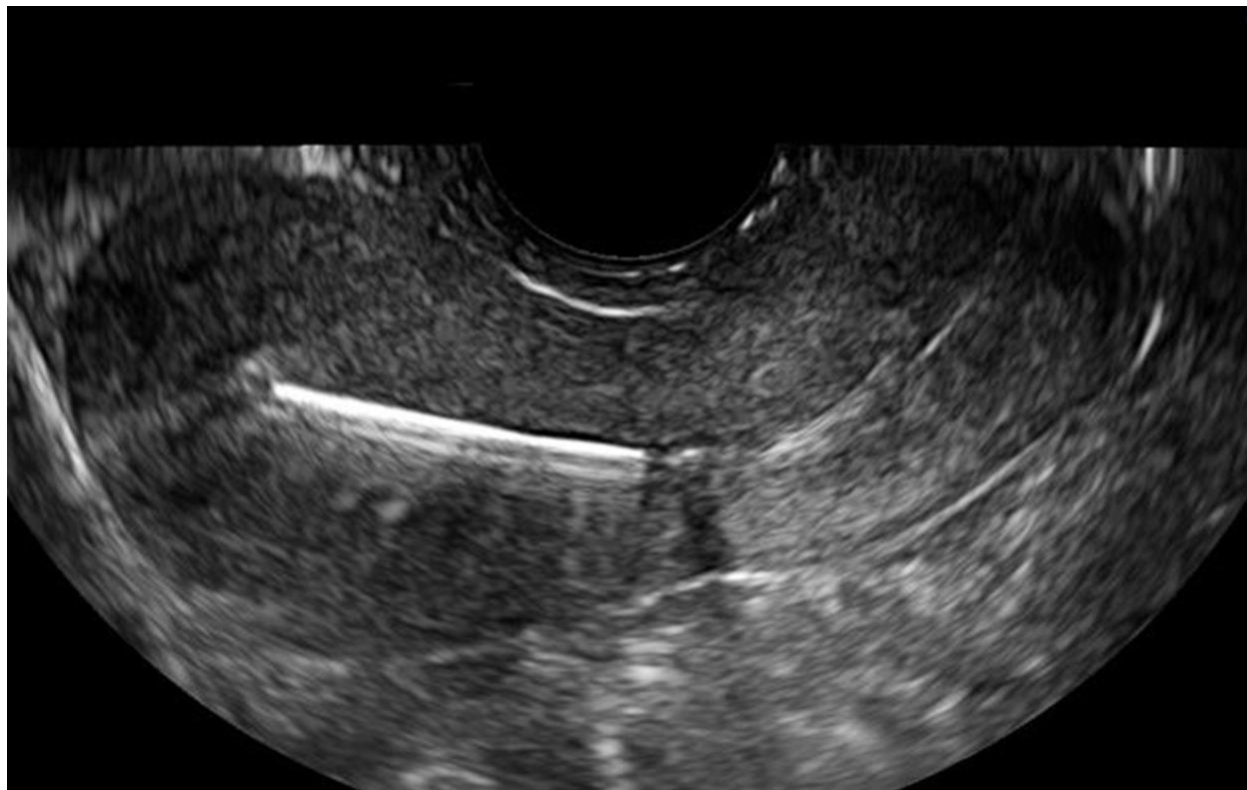

14. Hydronephrosis

15. Vitreous detachment

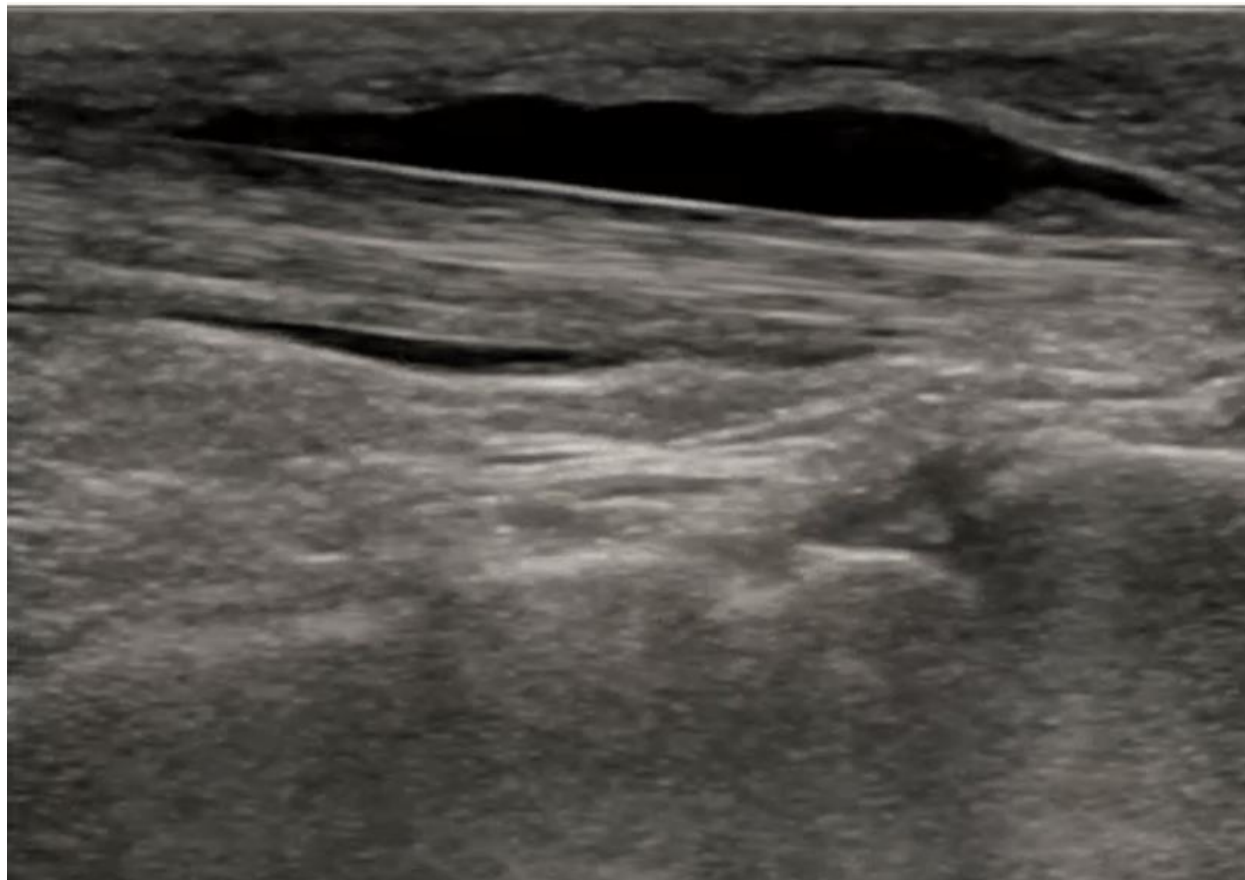

16. IUD

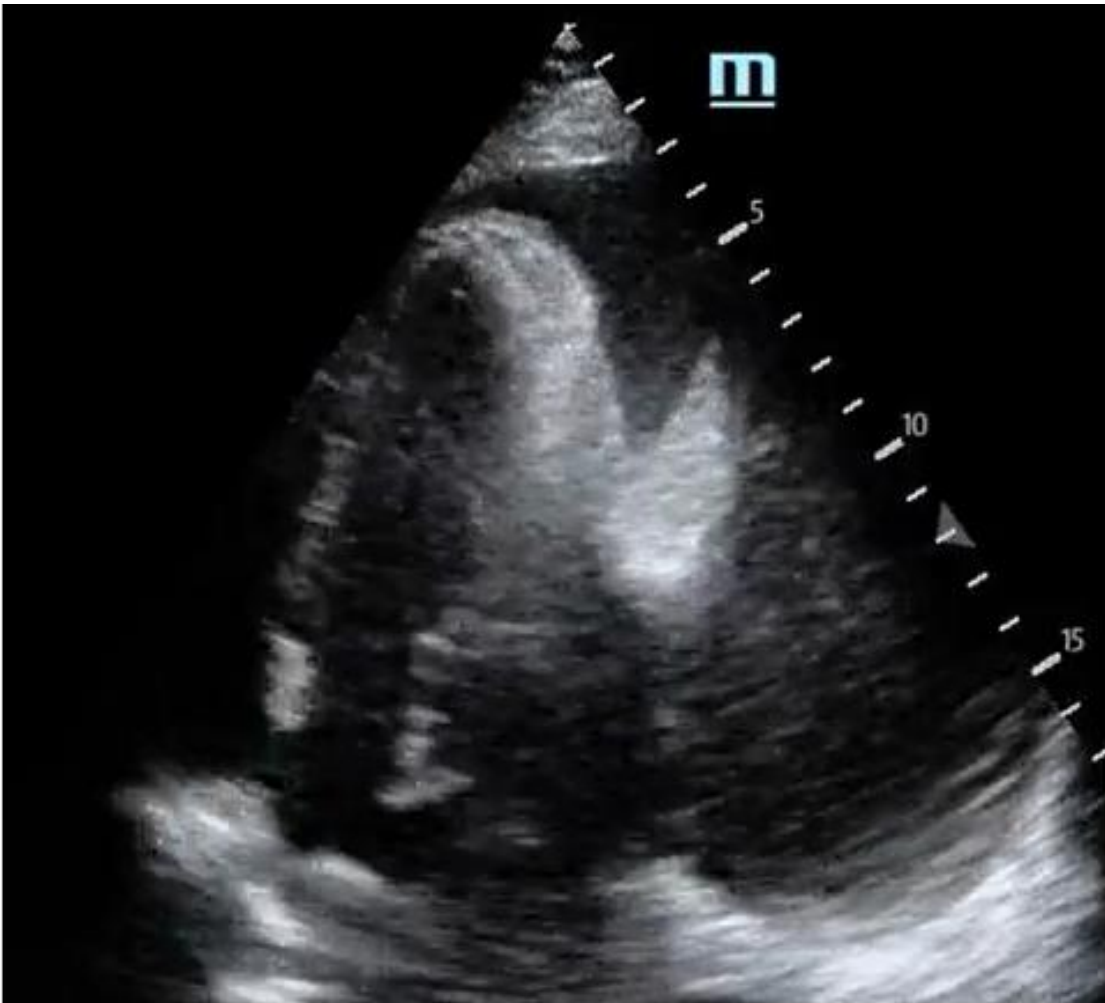

17. Shoulder Dislocation

18. Tenosynovitis

19. Pleural effusion

20. Pericardial effusion
