AWAEM was established in 2009 to promote the recruitment, retention, advancement and leadership of women in academic emergency medicine. We provide faculty development and a support network to facilitate mentoring and research collaboration to address the unique needs of women in academic emergency medicine. The success of academic emergency medicine and the ability of the speciality to train future emergency physicians are intrinsically linked with the success of female faculty.

Recent publications:

Making Promotion Count: The Gender Perspective. Madsen TE, et al. 03/19 Academic Emergency Medicine

Impact of Women-focused Professional Organization and Academic Retention and Advancement: Perceptions from a Qualitative Study. Lin, M03/19 Academic Emergency Medicine.
