

Albany Medical Center Visiting URiM Scholarships

Albany Medical Center is committed to ensuring a diverse and inclusive work environment, and the Department of Emergency Medicine is excited to announce our URiM Visiting Student Scholarship program.

This scholarship program will provide selected applicants with a \$2000 stipend while students participate in the care of patients at the busiest Level I trauma center in the state of New York. Students will also be paired with an EM faculty mentor who will provide individual advising and assist them in navigating the road to residency. Students may also elect to receive specific Leadership training at our unique academic center where the President and the CMO of the Hospital, the Dean of the Medical School, and the Associate Dean of GME are all emergency medicine faculty.

The highlights of this 4-week Clerkship include:

- gaining expansive clinical experience working in the only tertiary care Adult and Pediatric Emergency Department in a 300 mile area treating a wide range of diverse pathology with 10 helicopter bases stations from the Canadian border to just north of Westchester, NY, and similarly east to west.
- ability to work alongside other residents while working directly with Attending faculty
- participation in hands-on simulation learning with high-fidelity mannequins and standardized patients, as well as skills labs
- mentorship from an EM faculty mentor
- special leadership training with top hospital directors
- the opportunity to attend all Albany Med residency educational activities.

Who can apply for this scholarship?

- Visiting 4th year students in the US medical schools in good standing at an LCME accredited US medical school who are traditionally underrepresented in medicine, specifically those who identify with the ethnicity of Black/African American, Latino/a, Native American/Alaska Native and Pacific Islander/Native Hawaiian. Consideration may also be given to those who are nonconfirming gender or sexual orientation and significant socioeconomic stressors.
- Student must have successfully completed their core MS3 rotations: Internal Medicine, Surgery, Pediatrics, Psychiatry, OB/GYN, Family Medicine

Please apply to our EM Visiting Student Elective through VSAS

In addition, please also apply to our URiM Scholarship Program by emailing us directly at PintoD@amc.edu for the scholarship application. We welcome any questions about the scholarship you may have.
